About Us

Since 1982, Newline has proudly led the way in shower innovation across New Zealand. It all started with the iconic Rollaway screen, a clever solution to make the most of compact bathrooms. Since then, we have expanded into a full suite of high-performance systems trusted by homeowners, architects, and builders nationwide.

From the strength of TuffBase™ to the design flexibility of ProFinish™, and the watertight reliability of AquaCheck, every system we create is designed to keep Kiwi bathrooms dry, durable, and looking great for years to come.

We are New Zealand owned and operated, designing and manufacturing right here in Tauranga, with distribution centres across the country to ensure fast, reliable supply.

At Newline, we are committed to bringing innovation, quality, and ease to every bathroom project and to being a trusted partner you can rely on.

Adina Acrylic

From \$1,849

Framed Acrylic Shower

Adina Acrylic showers are a testament to toughness, durability, and reliability. This shower has been specifically designed to meet the high standards of products used for social housing projects in New Zealand.

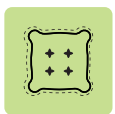

Crafted with safety and durability in mind, the Adina showers feature a robust cushion seal that can take on more heavy use than a regular shower. Incorporating ease of maintenance, this shower is pre-coated with glass protection, ensuring the glass stays cleaner for longer. The Adina shower is fully compliant with the M217 document, making it a preferred solution for social housing projects.

Marbella Acrylic

From \$2,329

Framed Acrylic Shower

The Marbella Shower range brings sleek design and exceptional value to your bathroom. With its semi-frameless structure and clean lines, Marbella delivers a modern, refined aesthetic while maintaining the durability you need for everyday use. It's a reliable, stylish solution that suits a wide variety of bathroom designs—from classic to contemporary.

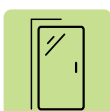

Designed to suit a range of bathroom styles, the Marbella Showers strike the perfect balance between affordability and quality, making them the ideal choice for those who don't want to compromise on style or function.

Why you'll love Marbella

Affordable Style

Enjoy the look and feel of a premium shower, with smart design and quality finishes at a price that won't break the budget.

Stylish Semi-Frameless Design

The semi-frameless style offers a clean, open look, bringing a sense of space to any bathroom.

Durability You Can Trust

Marbella is made from high-quality, durable materials designed to stand up to everyday use without compromising on style.

Easy Maintenance

Fewer frames mean fewer spots for grime to build up, making the Marbella easy to wipe down and effortless to keep looking great.

New Zealand Made

Designed and manufactured right here in Aotearoa, with local expertise and the Newline quality you can count on.

Marbella Tile

From \$2,099

Semi-Frameless Acrylic

The Marbella Tile Shower range brings refined simplicity and everyday practicality to tiled bathrooms. With its elegant semi-frameless design and crisp lines, Marbella creates a modern, open feel—perfect for adding a touch of sophistication without overwhelming the space.

Featuring a sturdy pivot door, Marbella offers easy access and a smooth, reliable user experience. Whether you're designing a sleek ensuite or upgrading a family bathroom, Marbella provides the visual lightness of minimal hardware while still delivering a secure and watertight enclosure.

Why you'll love Marbella

Value for Money

High-end appearance without the high price tag.

Modern Semi-Frameless Design

Creates a clean, open feel while maintaining a strong, reliable structure.

Sturdy Yet Stylish

Combines the durability of a framed shower with the elegance of a frameless glass - giving you the best of both worlds.

Easy to Clean

With fewer metal frames and edges, the Marbella is much easier to clean, saving you time and effort in your daily bathroom routine.

New Zealand Made

Locally manufactured with attention to detail and lasting performance.

Frameless Tile Shower

Planning a new bathroom or refreshing your current one? The Ankara Tile shower makes it easy. Whether you need a full shower package or just the door set, this versatile design fits beautifully into any mid-range renovation aiming for a high-end look.

Add our ProFinish™ Tile Over tray for simple installation and a clean, modern finish. With premium glass and sleek hardware, Ankara brings you a touch of luxury without the extra effort. The door opens both inwards and outwards, which is ideal for tight layouts and busy routines. Proudly made in New Zealand, Ankara is a smart, stylish choice that helps you bring your bathroom vision to life with confidence and ease.

Why you'll love Ankara

Premium Look & Feel

High-Quality glass and hardware give Ankara a refined, luxe finish - without the price tag.

Built to Last

Crafted with durable materials and quality hardware, Ankara is designed to handle daily use while keeping its sleek, modern look.

Dual-Swing Door

Frameless Door opens in and out, making it ideal for small bathrooms or busy households.

Flexible Installation

Whether you're looking for a door set or a shower package, Ankara adapts easily to suit your project.

Easy to Clean

With fewer edges, frameless showers are easier to clean and maintain.

Frameless Tile Shower

Anita Tile Showers are designed to bring calm and clarity to the bathroom. With frameless glass panels and a minimalist style, Anita offers a clean, open feel that makes any bathroom feel more spacious. It's an ideal choice for those wanting a modern tiled shower that looks great and fits within a mid-range budget.

Built for both form and function, Anita performs just as well as it looks. The smooth-rolling door glides quietly and reliably, while frameless glass and minimal hardware make cleaning simple. High-quality materials ensure Anita is made to last, so it stands up to daily use without compromising on appearance.

Why you'll love Anita

Mid-Range Price with High End Look

Strikes the perfect balance between style, function and affordability.

Spacious Comfort

Generously sized to give you a comfortable spa-like shower experience.

Smooth Roller System

A quality roller system ensures smooth, effortless operation every time.

Timeless Style

The frameless glass and open design create the illusion of more space, while also letting your tile shower design shine.

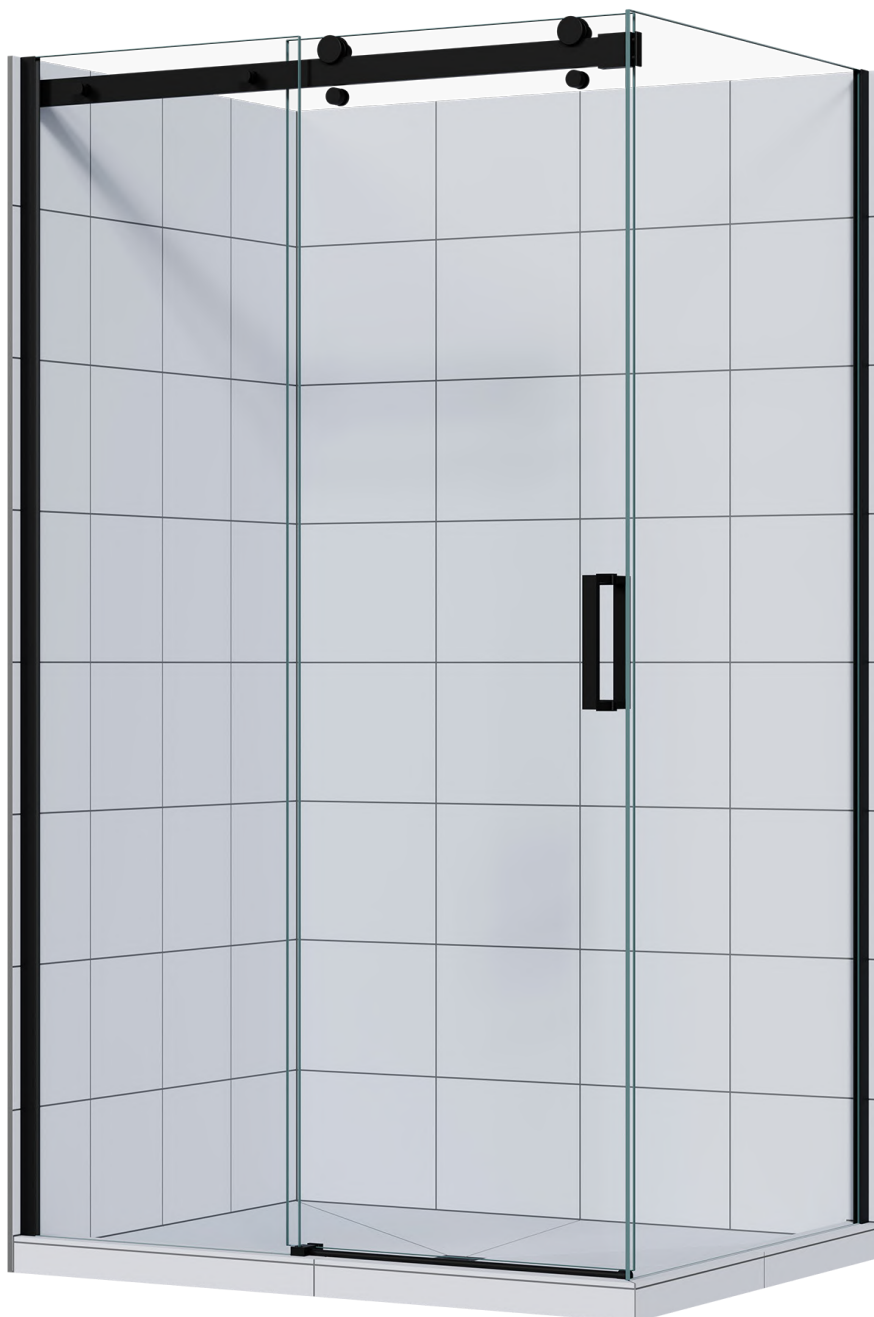

Less time cleaning, more time living

Frameless glass and minimal hardware mean fewer spots for soap scum and grime to build up.

Acrylic & Tile Wastes

Whether you're working with acrylic or tiled showers, a reliable shower waste is essential for performance and peace of mind. Designed to sit at the lowest point of the shower floor, point drains efficiently direct water to the waste outlet, preventing pooling and potential leaks.

We offer dedicated waste solutions specifically designed for each system—acrylic trays and tile over bases—ensuring the best fit, design and performance.

Why you'll love our Wastes

Acrylic & Tile Wastes

Whether you are looking for an acrylic or tile waste we've got you covered with wastes designed for each type of shower.

A Wide Range to Suit Every Project

From robust stainless steel tile wastes to more budget friendly acrylic wastes, you can find something for every budget.

Efficient Water Removal

Designed for rapid drainage at the lowest point of the shower, helping prevent water buildup and keeping floors drier and safer.

Easy to Install & Maintain

Our wastes are simple to install and easy to access for ongoing cleaning, helping to minimise long term maintenance issues.

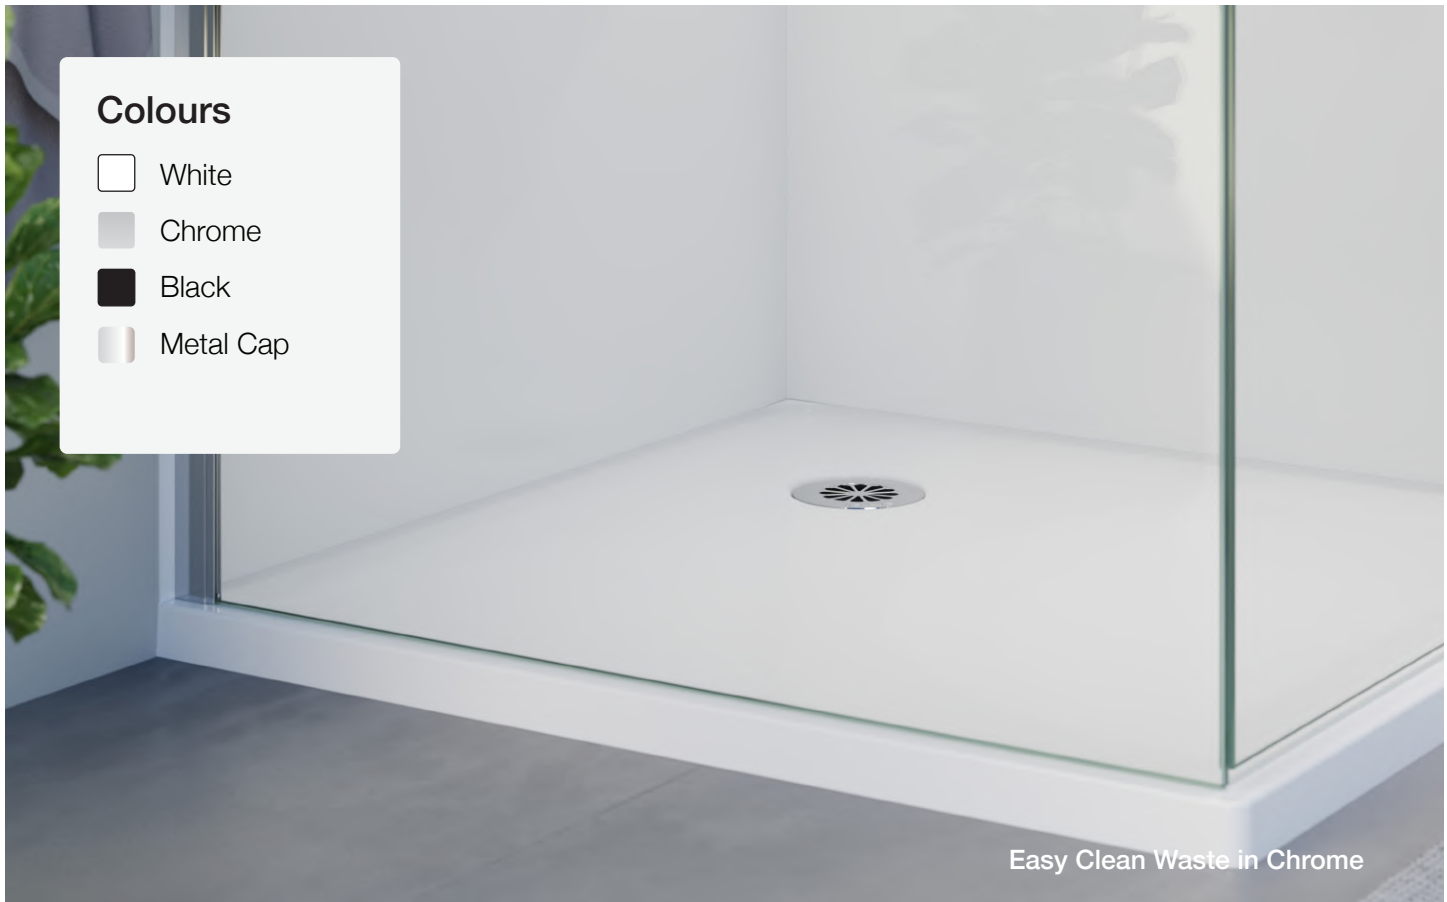

Because Your Plumber will Thank You

Our acrylic wastes come in both bottom exit and side exit configurations, making installation flexible and fuss free for your plumber.

AquaCheck: Low Profile Trays

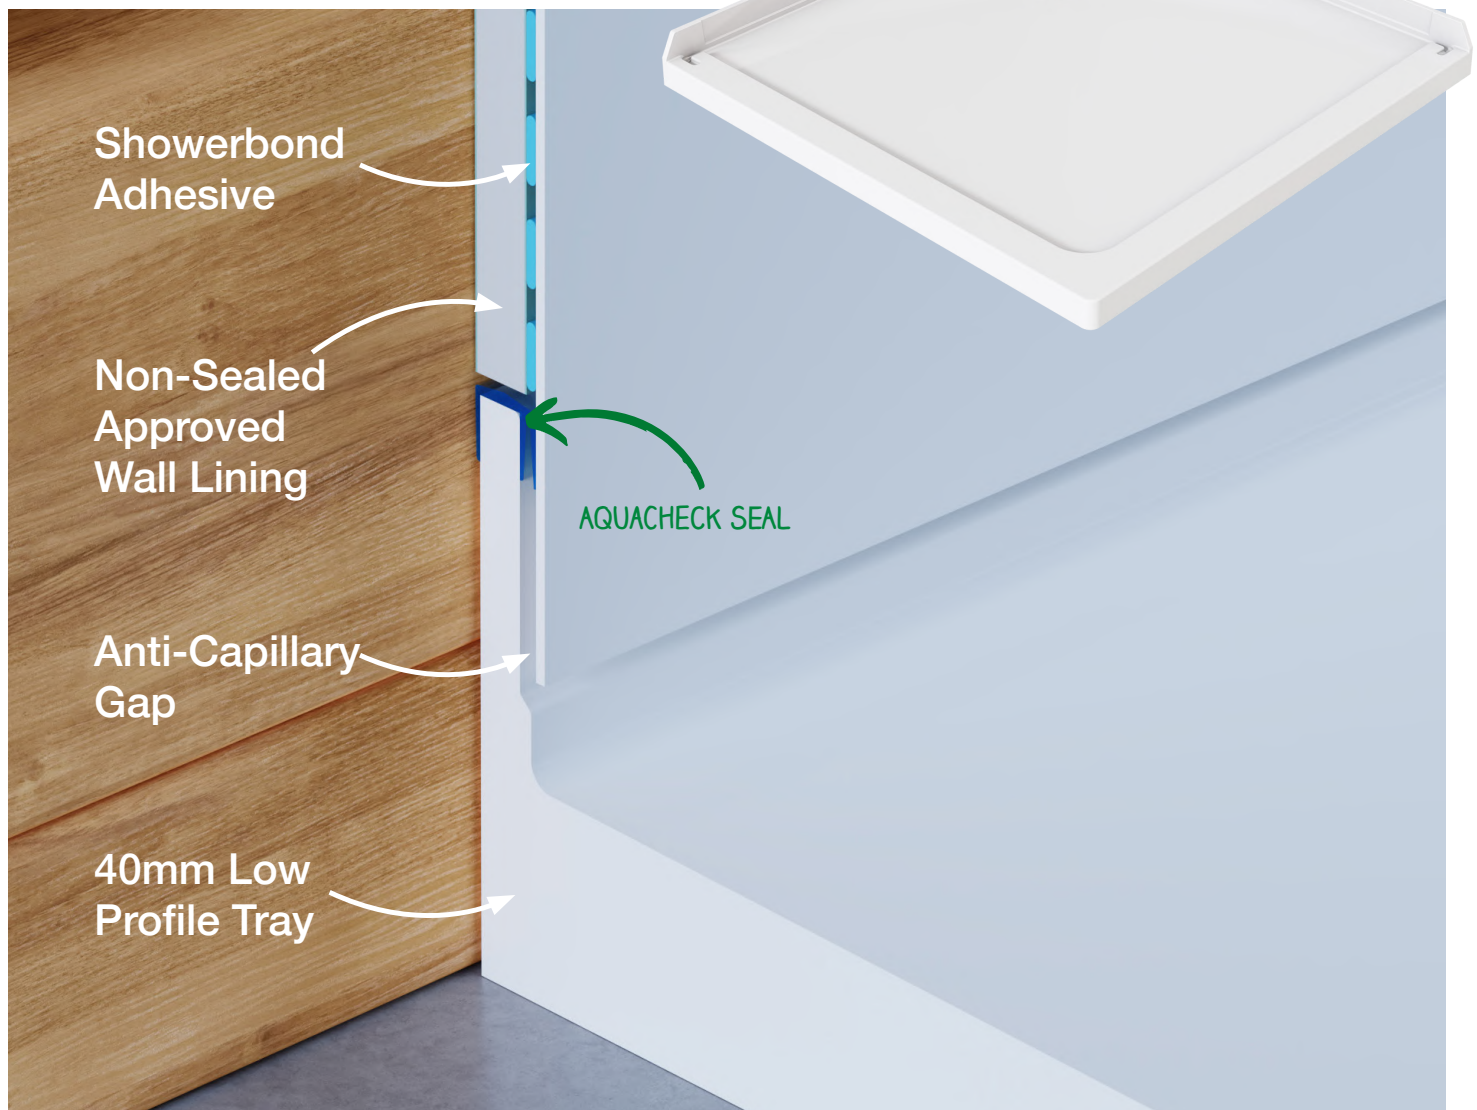

Experience a Leak Free Shower

AquaCheck represents a revolutionary advancement in preventing water damage to shower walls. This innovative technology creates a watertight seal along the top of the trays upstand, and incorporates a critical anti-capillary gap to help prevent water infiltration behind the acrylic wall liner. At the core of AquaCheck is its ability to counteract capillary action.

What's capillary action?

It's a phenomenon where liquid, due to stronger adhesion to the walls than cohesive forces between its molecules, can climb against gravity within a narrow space. In the case of AquaCheck, this principle is employed strategically to help prevent water damage.

The result is a highly effective means of protection structures and surfaces from potential water-related issues, such as leaks, mold, and damage. Choose AquaCheck for a reliable and preventive solution that not only addresses current water damage concerns but also mitigates future risks.

Precision Engineering

How it Works

ProFinish™ Tile Over Trays offer exceptional flexibility, as each tray can be custom-manufactured to suit your specific requirements.

They are simple to install, suitable for either hobbled or recessed applications, and can be fitted with a channel drain or a standard tile waste.

Once the wall lining is in place, the tray is glued to the floor, and a continuous waterproofing membrane is applied over the floor, tray, and up the walls.

Suitable For

You can install the ProFinish™ tray on different types of floors including Solid Timber, Particle Board, Concrete and Tiles Subfloor.
